8 Community Avenue
Plainfield, CT**

February 8, 2012

Minutes

Present:

Connecticut Department of Transportation

Rabih M. Barakat - Transportation Principal Engineer- Bridge Design
Andrew J. Cardinali - Bridge Design
Ken-Taro Plude - Bridge Design
Mark J. Elliot – Office of Construction

Town of Plainfield

Paul E. Sweet – First Selectman
William Holmes – Police Commission Chairman
Melissa Wilcox – Police Commission Member

Media

Kerensa Konesni – WINY Radio

Presentation:

The meeting opened at 6:30 pm with an open house format question & answer. Forty scale plans were displayed and brochures were available for handed out. Mr. Sweet, Mr. Holmes, Ms. Wilcox from the Town of Plainfield and Ms. Konesni from WINY Radio were in attendance. There were no residents in attendance.

Mr. Barakat and Mr. Cardinali gave an interview to Ms. Konesni detailing why the project was initiated, the proposed work and construction stage sequences, as well as the proposed detour specified for a one week road closure.

No formal presentation was given because there were no residents in attendance. Mr. Sweet and Mr. Holmes attended the Town Roads meeting on November 30th, 2011 where a similar presentation detailing the scope and impact the project will have on the town and travelling public during construction was presented, and therefore did not feel a formal presentation was necessary.

The Public Information Meeting was adjourned at 7:30 pm.
